## Truth Project

Focus on the Family has produced a series called "The Truth Project" which explores the Christian World view as opposed to the Secular world view. We are in a cosmic battle for the TRUTH.

I have selected a group of 8 young men to participate in the program at Naselle and they are gaining in understand about the real battle. We have completed a quarter of the 12 lessons and the residents are saying great things about the materials.

I have one in group started in our home with another to start in early November. The focus of The Truth Project is to get believers to learn how to relate God to our world and be available to go to our neighbors to tell the good news of Jesus Christ.

Pray for each group to learn more and then do more as a result of these studies.

## Mentoring at camp

If you live close to the Naselle Youth Camp, and are looking for a ministry, there is a great need of mentors who will take personal interest in one resident to make a long term impact. Please contact me if you have the inclination to work with a resident, male or female.

## Chapel Groups

This picture from a few months ago shows a group in a lodge who get regular teaching. Every resident may come to the groups which are taught by volunteers or me. Some lodges have more than one opportunity to attend. I am looking for some men who would like to teach a "Sunday School" class from 8 am to 9 am each week. One male lodge still has no opportunity to have a class on Sunday mornings.

Among the unchurched people of America  
**Starting New**  
*Ministries*

## The Ministry

The work the LORD is having me involved in is a real “Search and Rescue” ministry. Many people have been duped by the enemy of the soul to believe in lies. The message of the gospel is the only hope for our society.

Please join us in being part of our Search and Rescue team to introduce people within the US to Christ. You can have a strategic part in our ministry by supporting us through prayer, volunteering and giving. Please read the enclosed brochure to see how you can join with us on our AMF team.

## Incident

Recently an incident on our fire department sent waves of shock through the ranks. On a call to an illegal burn, one fire-fighter was injured in a scuffle with an intoxicated male. Our firefighter was attempting to calm the situation when he was grabbed in a choke hold and had his eye scratched. The assailant is now in jail facing felony assault charges.

I am constantly reminded of the challenges of the ministry in coming along side and offering encouragement and prayer for those in leadership and on the front lines. Although things are returning to normal after the assault by the perpetrator, your prayer for protection of those in public service is always needed.

## Surgery OK

My hand is healing nicely after carpal tunnel surgery though I still haven't gotten my full-strength grip back. Still some pain there. I am exercising and my grip is gaining in strength. Thanks for your prayers for healing

## Things to Pray about

1. AMF's leadership – Wisdom for the New Executive director Ridge Burns.
2. Naselle Youth Camp for guest speakers and wisdom to work as part of the staff team.
3. Wisdom with finances to handle the increase in travel costs.
4. Wisdom to see where to start new ministries closer to home.  
(Partly answered with the Truth Project.)
5. Personal study and prayer
6. Recruiting new missionaries to win souls.
7. That all things done would focus people on Jesus and His work not the people doing the ministry.
